- @ Inspiring future Blockchain use cases
- @ Empowering Token and Company Value

SMAC

INTELLIGENT FLUIDS
the cleaning revolution

The advertisement features a vibrant, abstract background with a woman's face in the center, split vertically. The left side of her face is in shades of blue and green, while the right side is in shades of red and orange. The background is filled with colorful, ethereal patterns and a white unicorn in the upper right corner. The SMAC logo is in the top right, and the 'INTELLIGENT FLUIDS' logo is in the bottom right.

Digital offer of discount vouchers to attract significant sustainable change – Overview

PARAMETERS	PUBLIC LISTING (UTL)
	OFFERING DETAILS
Offering Goal:	Attract industry to change to Green Chemistry fastest possible for a positive impact on UN SDGs
Offering Type	Digital rights for discounted pricing on future intelligent fluids purchases in form of a Utility Token (SMAC) - available on multiple crypto exchanges
Donation and NGO-Support	Total € 0,10 automatic donation to the selected NGO per liter fluid purchases based on SMAC-Token
Supported NGO/SDG	SDG 14: https://www.oceancare.org
Allocation of funds	Green Chemistry Marketing and Pre-financing of fluid productions
Planned Timing	Public listings from around mid October 2021 ff
Investor type	Industrial clients / interested private parties
Minimum Investment	none
Legal Base	SMAC Terms and Conditions
Investment Allowance	Depends to Crypto-Exchange Terms and Conditions
Investor Subscription	On crypto exchanges with SMAC-Listing
Official Emission currency	At least BTC, ETH, USDT, EUR, USD (depends to crypto exchange)
	TOKENOMICS
Token Issuer	intelligent fluids GmbH Germany
Token Type	ETHEREUM ERC20
Token Lifetime	unlimited
Number of SMAC Token	Max. 150 Mio.
Nominal Price (face value)	€ 0.10 per SMAC Token
Token Burn	Each redeemed SMAC-Token will be burnt to reduce available Token quantity
Token Transfer to investors	with Token purchase on crypto exchanges
	INVESTOR RIGHTS, ALLOWANCES AND RISKS
Asset Class	tokenized digital discount voucher
Investor Rights	Right on discounted prices for purchasing a token-based volume of intelligent fluids
Discount Voucher Allowances	Initial 30 % discount on actual valid intelligent fluids sales prices per liter. Purchases limited to bulk orders (10 Liter bottle, 200l drum, 1000l-IBC). Price depends on fluid type.
Discount Voucher Decrease Terms	2021/2022: 30%, 2023: 20%, 2024: 15%, 2025: 10%, 2026: 5%, 2027ff: 3%
Granted fluid quantity for Discounts	1 Token: = 1 Liter
Listing on Crypto Exchanges	For global availability, it is planned to list SMAC vouchers fastest possible on crypto exchanges, such as UNISWAP, GATE, OKEX, BITHUMB, KUCOIN, HUOBI, BINANCE and/or on others
Initial Trading Price on Exchanges	USD 0,20 per SMAC Token
Bounties / Airdrops / Free Token / Discounts	Total 30mio SMAC are reserved for employee loyalty program, CSR program, Marketing and Services and for bonus token on high volume orders,
RISK WARNING	ATTENTION: In the worst case (e.g. bankruptcy or other risks) there is a risk of total loss of value

Incentifying industries to change to Green Chemistry

About 322 million tons (2013) of toxic and harmful chemicals are produced every year across the EU alone. Severe health-risks and high potential damage to the environment derive from common chemical solvents' usage in industrial cleaning processes.

A huge global market of almost 50bn€ mostly harmful wet chemistry is waiting to be challenged and replaced. We created the basics to grow in big and give the right answers. We intrinsically **support 10 Sustainable Development Goals** of the United Nations with a significant positive effect for our planet.

intelligent fluids offer a sustainable, efficient and powerful solution for industrial cleaning by utilizing physical effects instead of toxic chemicals, meeting much more than today's standards for eco-friendliness with biodegradable, non-inflammable and pH neutral ingredients. Really unique and disrupting is the fact that *intelligent fluids* combine outstanding performance with a remarkable Eco-Footprint. Top functionality and top sustainability are not any longer contradictory.

The **patented technology** of *intelligent fluids* combines gentle ingredients to tailor-made phase fluids that remove organic contaminants effectively and gently, by a molecular teamwork like a micro-earthquake. This **groundbreaking Impact Chemistry** is able to penetrate, fragment and finally lift-off even persistent impurities and heavy deposits (dirts/oils/colors/adhesives) in a very powerful and gentle way. Check this [video link](#) for more info. Oil&Gas, Microelectronics and Maintenance industries have our major attention.

The DeepTech company intelligent fluids GmbH (IFC) is a young German SME with 22 employees located in Leipzig, Germany. The focus is on the development and marketing of unique phase fluids. The company won the **Global Green Product Award 2021** for circular materials and the **Imagine Chemistry Award 2019**.

In order to attract industries to change from harmful solvents to green chemistry we will carry out a Utility Token Offering (SMAC - smartchem). This will also help scale the company and achieve a relevant global market share. The faster the companies change to use Green Chemistry, the more rewards they will get in return.

We will offer digital discount rights (utility tokens) for future fluid purchases and thus generate effective additional and immediate pre-sales. The tokens will also be available and tradable on various crypto platforms. This method of fundraising offers a high degree of flexibility for customers, liquidity for investors, a unique opportunity to benefit as early adaptor from attractive discounts on fluid purchases or from a possible increasing token value. Plus an impressive eco-footprint!

The tokenized rights entitle the holder to purchase intelligent fluids (in a volume based on the number of tokens in possession) with a discount of initial 30% on the actual valid fluid pricings. Total € 0,10 per liter purchased fluid will be donated to the NGO [oceancare.org](#) (SDG 14). Green Chemistry together with SMAC-Token community can make a difference!

You are welcome to join our way cleaning up global industries by Green Impact Chemistry.
[SMAC that – together with us.](#)
